**KILLS AT LEAST
99.999%*
OF GERMS AND
IS EFFECTIVE
FROM 30
SECONDS.**

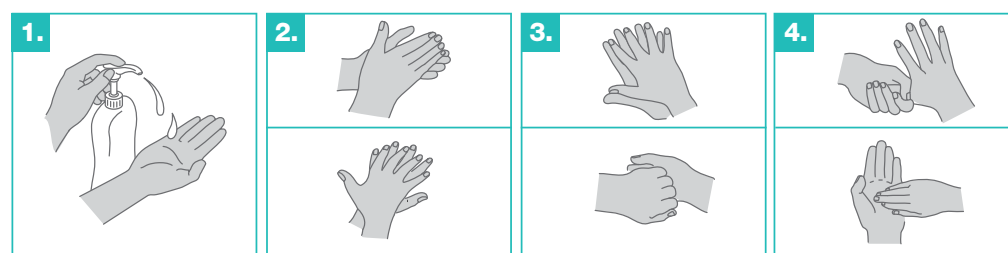

* According to European standard tests EN1276 and EN1500.

DETAILS

Clinell Hand Sanitising Gel contains a unique blend of 70% alcohol (WHO recommended) and biocides, minimising the risk of alcohol tolerant bacteria developing. Providing a superior level of effectiveness against germs. It instantly disinfects hands without the need for soap and water and leaves no sticky residue.

The formulation also contains glycerin and aloe vera which helps to moisturise and condition the skin, preventing the dry, cracked hands so often associated with other alcohol gels, leaving your hands feeling naturally refreshed.

DIRECTIONS

1. Apply two squirts into the palm of your hand.

2. Rub hands palm to palm. Rub back of each hand with the palm of the other with fingers interlaced.

3. Rub palm to palm with fingers interlaced. Rub with backs of fingers to opposing palms with fingers interlocked.

4. Using a rotational movement, rub each thumb with other hand. Rub tips of fingers in palm in a circular motion.
